Abstract

The automotive industry plays an important role in the manufacturing sector of the

*Turkish economy. The companies operating in the Turkish automotive sector are mainly* 

located in the Marmara Region. In 2012, Turkey produced more than 1 million motor

vehicles. Comprising a cluster of car-makers and parts suppliers, the Turkish

automotive sector has become an integral part of the global network of production

bases, exporting nearly \$20 billion worth of motor vehicles and components.
